DESIGN FLOORING

## The Urban Collection

The Urban Collection draws its inspiration from the latest design trends in the world of interior and home fashion. The planks are embossed with a wood grain pattern and feature a patented 2G locking mechanism for a simple and reliable installation, whilst the EVA foam backing provides acoustic benefits.

## Flooring That is Built to Last

Frontier Hybrid Plank floors are built to stand the test of time. From inner core construction to wear layer finish, every detail has been designed to get the most out of your flooring.

### Designed for durability

Each Hybrid Plank is enhanced with a multi-layered construction for increased stability, providing outstanding durability, impact resistance and comfort underfoot.

### Perfect for high traffic areas

The dense SPC core helps resist impact and indentation – even from high heel shoes.

### Built to withstand the flow of daily life

With a 5 Year Commercial Guarantee and 10 Year Residential Guarantee, you can feel at ease knowing your floors will stand the test of time.

# Plank Construction

Plank Size: 5.0 x 180 x 1230mm

Urethane lacquer coating  
For scratch & wear resistance

0.30mm Clear PVC Wear Layer  
For protection of decor film

PVC Film  
For a realistic timber visual

4.0mm SPC Core  
Stone-plastic composite for stable construction

1.0mm EVA foam backing for acoustics

## Sustainable Practises for a Better Future

Awarded certificate of compliance (COC). For Best Practice PVC by Bureau Veritas for all Frontier Hybrid and Vinyl Plank flooring products.

Backed by the Sensitive Choice program, our Hybrid Plank products are phthalate-free & low in VOC's, contributing to cleaner indoor air quality.

## Perfect for Every Room

You can have Hybrid Plank floors on any level of your home for a consistent and cohesive look throughout the entire house. It can be installed over most subfloors, as well as existing hard surfaces.

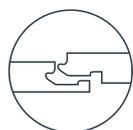

### True to nature

The realistic timber embossing follows the natural pattern of the grain. Planks are available in the same size as traditional timber boards to create a stunning floor that looks and feels just like real timber.

### Easy to clean and maintain

Real timber boards require a lot of maintenance to retain their aesthetic, but with Frontier Hybrid Plank floors it's effortless. Thanks to the unique, rigid construction and composition, you don't need to oil, sand or refinish the boards.

### 2G locking mechanism

Our Hybrid Planks use an integrated, user-friendly 2G locking mechanism. Built for a speedy and secure installation, these planks click together tightly with no gapping. Adhesives are not required.

### The quiet achiever

Equipped with our EVA foam backing, test results show a noise reduction of 30% compared to a standard underlay under the NCC (National Construction Code). This makes our Hybrid Planks perfect for apartments and multi-level homes.
